FOR IMMEDIATE RELEASE

CALGARY CHARITY COMPLETES MAJOR ACCESSIBILITY RENOVATION OF FAMILY HOME
Ramirez family moves back home after extensive renovations to aid with accessibility

Hearts & Hammers along with Ramon & Noemi Ramirez will be hosting a media visit at their newly renovated home:

Tuesday May 19th at 12:30pm
5803 28 Avenue NE

Hearts & Hammers is proud to have completed this renovation for Ramon & Noemi, which included an outdoor wheelchair ramp, indoor stair lift, completely modified bathroom and so much more. Ramon suffers from a Parkinson-like disease that has gradually left him more and more debilitated. Prior to this renovation, Noemi struggled greatly trying to move her husband Ramon through their split-level home.

This home renovation has greatly changed the Ramirez's lives by bringing ease, comfort and dignity to their day. No longer does Noemi have to drag Ramon by rope up the stairs or carry him on her back to the car. More importantly, no longer does Ramon have to stay isolated in the bedroom; he now enjoys being able to easily be in the heart of the home with his family.

Hearts & Hammers is a volunteer based Calgary non-profit founded in 2012 by Dave Bonk, a local real estate and property manager. The mission of the organization is to provide home renovations to Calgary families in need with mobility issues.

Each year, Hearts & Hammers accepts nominations for individuals or families in need of a home renovation due to mobility needs. Renovations may range from minor upgrades to major accessibility improvements for individuals with physical disabilities. Using funds generously provided through donations and sponsorships, Hearts & Hammers mobilizes a team of volunteers and trade professionals to manage and execute all aspects of a home renovation project for a very deserving Calgary family.
